

LOCAL GOVERNMENT CORPORATION is a not-for-profit corporation chartered to provide computer services to local governments.

We work closely with state agencies, auditors, and municipal and county officials to ensure our software meets the latest demands of local, state, and federal legislation.

Since we were founded in 1977, we have grown to serve over 1,350 customers across Tennessee, Alabama, Kentucky, Mississippi, and Georgia.

We attribute our success to our commitment to customer service, being there for our customers when they need us.
