

# Is Your Website Responsive?

LGC knows that serving your community is of the utmost importance to you! Sharing information with your residents is an important part of serving your community. One of the best ways to share information is by placing it on your website. LGC offers responsive website design with professional hosting.

The primary goal of responsive design is to build web pages that detect the user's screen size and change the layout accordingly. Unfortunately, simply placing information online isn't enough. Making a good first impression is important! If users must do a lot of zooming, shrinking, and scrolling of their screens during their first visit, they are more likely to give up and leave the website. Responsive web design optimizes the user's browsing experience.

## LGC's Basic Web Package

### Includes:

- Responsive Design
- Up to 10 Web Pages
- Up to 10 Graphics
- Unlimited External Links
- Weather Plug-ins
- Video & Audio (Up to 5 GB)
- Search Engine Optimization
- Google Map & Google Calendar Plug-ins
- Online Registration & Sign-Up Forms
- Facebook, Twitter, Instagram, & YouTube Plug-ins
- LGC's Content Editor

Responsive web design also helps meet the criteria for ADA compliance. Our web team has a set of criteria to evaluate the website after development is complete in order to bring the site to compliance as best as we can discern from the law.
